

### **Meckel's Diverticulum (Detection of ectopic gastric mucosa)**

- This study detects stomach tissue that may be located in areas outside the stomach.
- A small amount of radioactive material will be injected into a vein.
- Reactions or side effects caused from radioactive materials are uncommon; on rare occasions, mild effects may occur. Risks associated with these levels of radioactivity, if any, are believed to be quite small and almost always justified by the benefits gained with diagnosis of possible disease.
- The scan will commence immediately following the injection, continuing for period of \_\_\_\_ minutes.
